Software Skills

- Python Proficiency
- Back-End and Database Skills
- Front-End Skills : HTML, CSS
- Containerization Technologies
- Git Version Control
- Effective Communication
- Technical Leadership
- Problem Solving

Education Background

- Sri Krishna College Of Engineering and Technology
BE Computer Science and Engineering
Currently Undergoing - 8.56 CGPA
- Yuva Bharathi Public School
Higher Studies - 8.8/10
Completed in 2022

About Me

I'm a second-year CSE student with a versatile skill set spanning Java, C++, Python, Django and the MERN Stack. Proficient in Django, React JS, SQL, AWS Cloud, and Selenium testing.

I've demonstrated leadership in hackathons and project engagements. Passionate about technology and innovation, I actively participate in extracurricular activities for holistic growth.

Projects

• InstaChat - A Full Stack Messaging Platform

This application is a full stack messaging web application built using MERN Stack, and Socket.IO Library

• Full Stack Ecommerce Web Application

This web application is full stack ecommerce app which is built using Django Framework, with many exciting features

• JobFit AI - Job Recommendation System

It is a prototype which helps to find the best job title based on the resume provided by the candidate using langchain and OpenAI
