Soft Skill

- Observation
- Decision making
- Communication
- Critical Thinking
- Problem Solving

Education Background

- Sri Krishna College Of Engineering and Technology
  BE COMPUTER SCIENCE ENGINEERING
  Currently undergoing

- CS ACADEMY
  Higher Studies
  Completed in 2022

About Me

I'm a second-year CSE student with a versatile skill set spanning Java, C++, Python, and the MERN Stack. Proficient in MongoDB, SQL, React JS, Spring Boot, AWS, and testing,

I've demonstrated leadership in hackathons and project engagements. Passionate about technology and innovation, I actively participate in extracurricular activities for holistic growth.

Project Experience

Disaster Alert Project using Cellular and Satellite Signals : 1st Place (Allerting all the residence near the issued area and making instant alerts to the NGO's,Police and Fire Station in less than a 30 seconds)-Ideathon Winner

Sentiment Analysis :
developed a sentiment analysis tool using OpenAI, ,MoviePy , Streamlit, and Python to assess the safety and appropriateness of MP4 videos, particularly for kids. 🎥 🔍

Smart Instant Law Suggestion System : Participated in SIH for instant law suggestions based on issues prompted by user(dynamically)

Blog Summarizer :
developed a tool that automatically summarizes lengthy blog posts into concise, digestible chunks. This project marries the cutting-edge technology of OpenAI with the aim of simplifying information consumption for everyone

Honours :

- Zenith Ideathon Winner
- SIH 2023 Finalist
- Y2E Finalist

Extracurricular Activities :

- Public Speaker
- President , Vestibule English Club
- Auditorium MC (Media Compere)
- Active participation in GDG community (attended 6 meetings)

Languages :

- ENGLISH
- TAMIL
- TELUGU

Website Chat :

a breakthrough project revolutionizing how we engage with online content! 🚀 Powered by ChatGPT 4.0, LangChain, and OpenAI embeddings, this project seamlessly blends web scraping, natural language processing, and context-aware retrieval for an unparalleled conversational experience.

Law Advisor :

It is a website that suggests you the Laws based on the users suggestions.

JobFit-AI :

It is a prototype which suggests the kind of job that is suitable for a person based on the user's CV.Using fewshot prompting.

Certifications / Courses

1. MongoDB and Documentation Course
2. UI Path Automation Course
3. Introduction to Cloud Architecture in VMWare
4. Langchain in ActiveLoops (DeepLake)
5. Kotlin Course (Google Learning)
6. Completed 7 courses on Kaggle
7. AWS cloud practitioner

Currently undertaking a course on 3js for Animated Websites
